

CourierPost Customer Dangerous Goods Guide

What are Dangerous Goods?

Dangerous Goods (DG) are articles or substances which are capable of posing a risk to health, safety, property or the environment and which are shown in the list of dangerous goods in the applicable Dangerous Goods regulations or classified as dangerous in those regulations.

Some examples of dangerous goods are:

Paint, Camping gas, Petrol, Perfume, Aftershave, Bleach, Nail varnish, Fireworks, Matches, Lighters, Fly spray

CourierPost Dangerous Goods Policy Statement:

- Dangerous goods will not be accepted at PostShops or CourierPost branch sales counters
- Dangerous goods will not be carried by Rural Post or AirPost aircraft
- Dangerous goods will not be delivered to Private bags, PO Boxes or Parcel Collect locations
- To ensure CourierPost employees, contractors and customers enjoy a safe workplace and members of the public are not put at risk, the company will ensure that appropriate training in the handling of emergency procedures relating to dangerous goods is provided
- This policy is set to work within the legislative requirements of the Land Transport Rule Dangerous Goods 2005, the current IATA regulations and the IMDG regulations (and any other amendments made from time to time)
- All CourierPost staff and contractors are responsible for ensuring that these requirements are met before any handling and processing of DG's

CourierPost reserves the right to amend this policy without notification and will ensure that any changes are effectively communicated.

What does this mean in Layman's terms?

Our policy is designed to allow us to carry Dangerous Goods safely and legally for those customers who have small volumes of Dangerous Goods.

What kind of Dangerous Goods will CourierPost carry?

- Class 2.2 Non flammable compressed gas – oxygen tanks
- Class 2.1 Flammable gas-hairspray
- Class 3 Flammable liquids- paint and or printing ink, perfumes
- Class 4.1 Flammable solids -matches
- Class 9 Miscellaneous substances – dry ice

The following classes may be carried but will require official sign off from CourierPost:

- Class 6.2 Infectious Substances – generally blood samples and similar items only
- Class 7 Radioactive material – generally medical and similar items only

Dangerous Goods Symbols

Conditions of Carriage

- All Dangerous Goods must carry a CourierPost DG surcharge ticket
- Service standards for dangerous goods will be 1-2 days within island and 3-4 days between islands.
- All DGs presented to CourierPost must be properly marked, labelled, identified and documented using the standard Road Transport Declaration (NZS5433:1988 Amendment No.1)
- **The shipper (consignee) is responsible for meeting all documentation, labelling and packaging requirements**
- DG Declaration forms must be provided in duplicate
- DG's that have subsidiary risk will not be accepted
- A Customer maybe required to uplift DGs from a Depot or Branch if the criteria of this policy are not met

Dangerous Goods Limited Quantities Policy (DGLQ's)

- **Dangerous goods in limited quantities** are dangerous goods of low or medium danger that can be transported with some relaxation of controls for packaging and segregation.
- The maximum quantity varies according to the class of the DG. The table attached to this document lists the maximum quantities and shows this by 'maximum quantity per inner packaging' for those classes that CourierPost will carry subject to signoff.
- A declaration is required with 'DGLQ' written on the documentation
- The item must be marked or labelled with just one of the following:
 - UN number and proper shipping names of the DG's
 - Class and division, including subsidiary risks plus the label of 'DGLQ'
 - The UN number of all DG's in the package, placed within the white diamond

Dangerous Goods in Limited Quantities that CourierPost will carry

Class or division or product	Packing group	Physical state	Maximum quantity per inner packaging
2 - UN 1950, AEROSOLS containing toxic substances or UN 2037, GAS CARTRIDGES containing toxic substances	-	gas	120 ml water capacity

Responsibilities of the Consignor:

The Consignor of any Dangerous Goods MUST ensure the following is carried out:

1. Dangerous Goods are correctly classified according to their properties
2. Dangerous Goods are correctly packaged (section 3 of the rule)
3. Dangerous Goods are correctly marked and labelled (section 4 of the rule)
4. Correct Dangerous Goods documentation is provided (section 5 of the rule)

Failure to comply with the above may result in the fines

Packaging:

- General Packing Requirements:
 - Good quality
 - Compatible with the substance
 - Appropriate for the amount of substance
- Specification Packaging:
 - Tested and Approved
 - Approval markings
 - Conforms to “Packing Groups”
- Limited Quantity Packaging:
 - Not approved
 - Able to contain small amounts only

Marking and Labelling:

- UN Specification:
 - UN Number
 - Proper Shipping Name
 - Hazard Class label
- DGLQ:
 - UN Number, Proper Shipping name, Hazard Class label or
 - Hazard Class label and “DGLQ” or “Dangerous Goods in Limited Quantities” or
 - UN Number (preceded by UN) placed within a White Diamond

Documentation:

When dangerous Goods are being transported they **MUST** be accompanied by documentation that complies with the Rule (see below link to the Rule). The documentation **MUST** identify the goods and the hazards that arise from them (refer to section 5 of the Rule).

A Dangerous Goods declaration must state:

1. UN Number
2. Proper Shipping name
3. The Class and Division, if assigned, and any subsidiary risks
4. The Packing Group, where applicable
5. Any other technical information necessary to identify the product to ensure the dangerous goods are loaded and segregated correctly, and to advise of any additional cautions that must be taken
6. Number and type of packages
7. Total quantity of dangerous goods by volume or mass
8. Name and address of the consignor and consignee
9. Name, date and signature

Penalties:

The above is taken from the Land Transport Rule Dangerous Goods 2005. Failure to comply with these regulations could result in fines for the individuals and the organisation as a whole. Fines range from \$5,000 - \$50,000 depending on the infringement.

Website:

More information on dangerous goods can be found on the [NZ Transport Agency website](http://www.nzta.govt.nz/transport-rules/dangerous-goods/).

Further information:

Speak to the CourierPost National Operations Team if you have any questions.
